Re: AN IMPLANTABLE CARDIOVERTER DEFIBRILLATOR HAVING
A PROTECTED CONNECTION HEADER
VT0309-US1

Dear Steven:

I am enclosing a hard copy of the application already emailed, and two copies of formal drawings, along with a copy of my invoice. I realize that you will be away most of June, and that you may wish to offer some more feedback.

I will be happy to make further revisions at your request, and you may hold the enclosed invoice until my work is complete. I am sending this hard copy primarily to get the drawings in your hands in the hope that they will not require rework.

Note that the inventor suggested several alternative configurations not found in the disclosure, and these have been illustrated as well. Please call if you have any questions. Thank you for the opportunity to work for you.

Sincerely,

Bennet K. Langlotz
